

Commissioner's Award

“For outstanding effort and dedication to the development of High School Bowling in the state of Nebraska.” This is the inscription on the plaque that bears the face of the winner of the Commissioner's Award, presented by the Nebraska High School Bowling Federation.

The Commissioner's Award serves as a reminder that it's the people who contribute their skills to an organization that make it possible for the organization to do great things.

The road toward the dream of getting bowling accepted by Nebraska's high schools is paved with the efforts of hundreds of people who have come together to make this dream a reality.

The past winners of this award and the people who will be honored in the years to come have given their talents to move High School Bowling forward in Nebraska.
